FITMASTER LEVEL I
TUESDAY SEPTEMBER 21 - 8AM - 12PM

Fit Kit, the most widely accepted system for bike fit, increases sales and customer satisfaction by providing a quick and reliable method to establish a safe and developmental fit for your customers. Vendor-independent, Fit Kit puts you in control, and provides a fact-driven basis for fits of all levels of sophistication.

- √ Earn Level I Fit Kit certification.
- √ Make good fit part of every sale
- √ Learn useful biomechanical terms and principles.
- √ Translate data into a proper developmental fit
- √ Perform basic on-bike fit verification.

The Waterford Fitmaster is the leading fit validation tool, suitable for both custom and stock bike fits. Learn how to get the most out of this precision machine. Designed for current and prospective Fitmaster users who already have fit training and experience.

- √ Translate fit data into a reliable Fitmaster set-up.
- √ Set up the Fitmaster to match stock bikes.
- √ Mock up and conduct stock bike fits.
- √ Learn a sound custom bike fit protocol.
- √ Use the Fitmaster as a re-fitting tool.
- √ Address custom bike design problems.

Chris Nurre, Fit Kit President since 1995, combines an extensive background in exercise physiology with two decades of bike shop ownership.

The Fit Kit System utilizes measuring devices and software to enable bicycle dealers, coaches, trainers, physical therapists and sports medicine professionals to fit cyclists with a safe developmental starting position. In using our proprietary bicycle fitting system, you will reduce injuries caused by improper fit and maximize performance.

Richard Schwinn is co-founder of Waterford Precision Cycles, America's leading builder of custom steel bicycles and developer of the Fitmaster.

The Waterford Fitmaster lets you verify and adjust bicycle fits for virtually any rider. Easy to set up, easy to adjust and easy to document, the Fitmaster invaluable for both stock bike and custom bike fits.
